SAHCO
FABRIC COLLECTION
„THE VENDEVOORT“
AUTUMN 2017

Helsinki, London, San Francisco, Melbourne and Barcelona: A journey through the trendiest city districts was the inspiration for a fashionable, diverse collection.

With so much expressiveness and excitement, THE VENDEVOORT revitalises not only hotels and hospitality projects, but also private interiors. All fabrics are made from flame-retardant polyester FR or Trevira CS and come in colours ranging from bold hues to subtle shades of soft pastels. This is a collection that is as individual, significant and authentic as the people who are surrounded by it. Welcome to the SAHCO boutique hotel THE VENDEVOORT.
